

### Get Right 6.3d

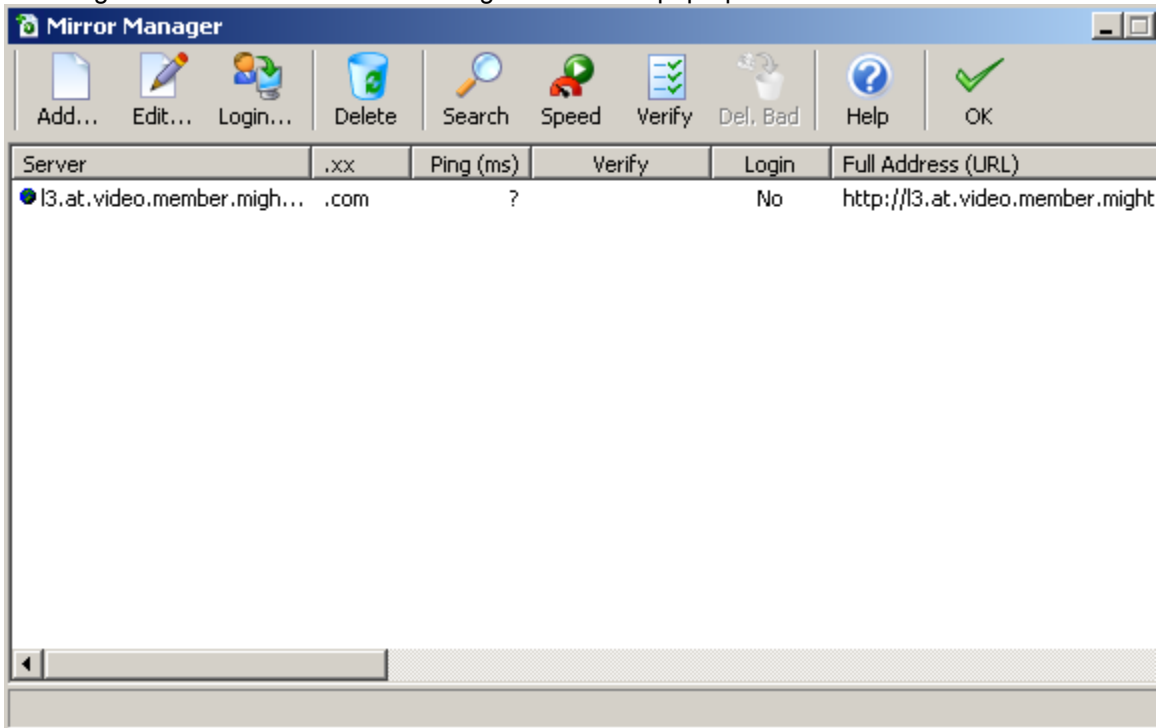

When your download disconnected and your session has timed out and you would like to continue downloading the file, do the following.

Log in to the site using your username and password, when you are in the members area, open up Get Right, browse the file you would like to continue to download.

For example  
v47025-301.wmv

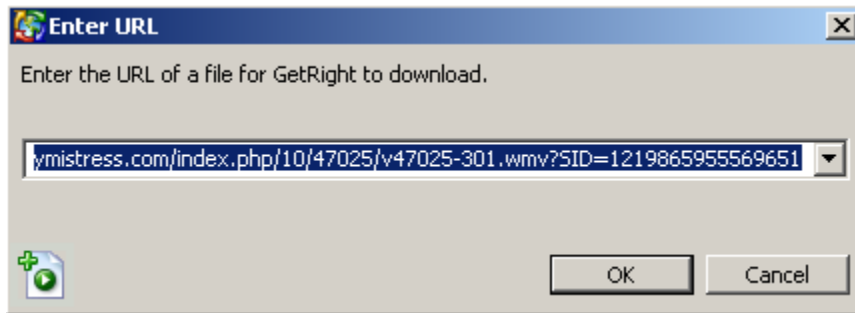

Press right click and select "mirror management" in the pop-up menu.

Select the mirror and press edit.

In the editbox you will see something like this

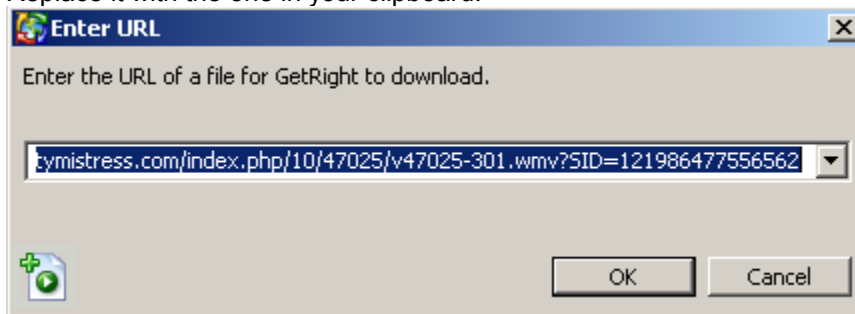

<http://l3.at.video.member.mightymistress.com/index.php/10/47025/v47025-301.wmv?SID=1219865955569651>

Go back to your browser and look into the addressbar.  
you will see something like this  
<http://mightymistress.com/members/?SID=121986477556562>

Copy the number you after SID= (121986477556562) to the clipboard.

Go back to Get Right, search the number after the SID= in editbox.  
Replace it with the one in your clipboard.

Press Ok.  
Press Ok again in the mirror management.

Press resume on the file to continue downloading.
